HOUSING
PARTNERSHIP.

InComE Project

Independence, Accommodation and Employment

Need your own flat?

Are you in an overcrowded council or housing association home and want to become independent? InComE can help.

If you are currently working, training or studying or are willing to start and want to get ahead we will support you to achieve your aspirations.

SBHA and the West London Housing Partnership have come together to provide you with a supported route out of an overcrowded environment and into your own home.

The reward for your success will be your own flat, new qualifications and a career.

For this unique opportunity, contact your local housing office (details overleaf) and ask about the InComE Project.
